# Les Voyageurs

# Concept Framework

Inspired by the voyageurs' journeys through Canada's river systems, this concept translates themes of flow, resilience, and connection into spatial design. Navigating obstacles, working in sync, and moving with the rhythm of the river inform an environment that emphasizes circulation, collaboration, and a deep connection to the landscape.

# Acorn & Oak

# Parti Diagram

The parti, “How the Acorn Becomes the Oak Tree,” symbolizes growth, nurture, and the passage of knowledge across generations. Just as an acorn grows into an oak, the space fosters learning in children while creating meaningful connections with residents.

# Modunest Office

# Research

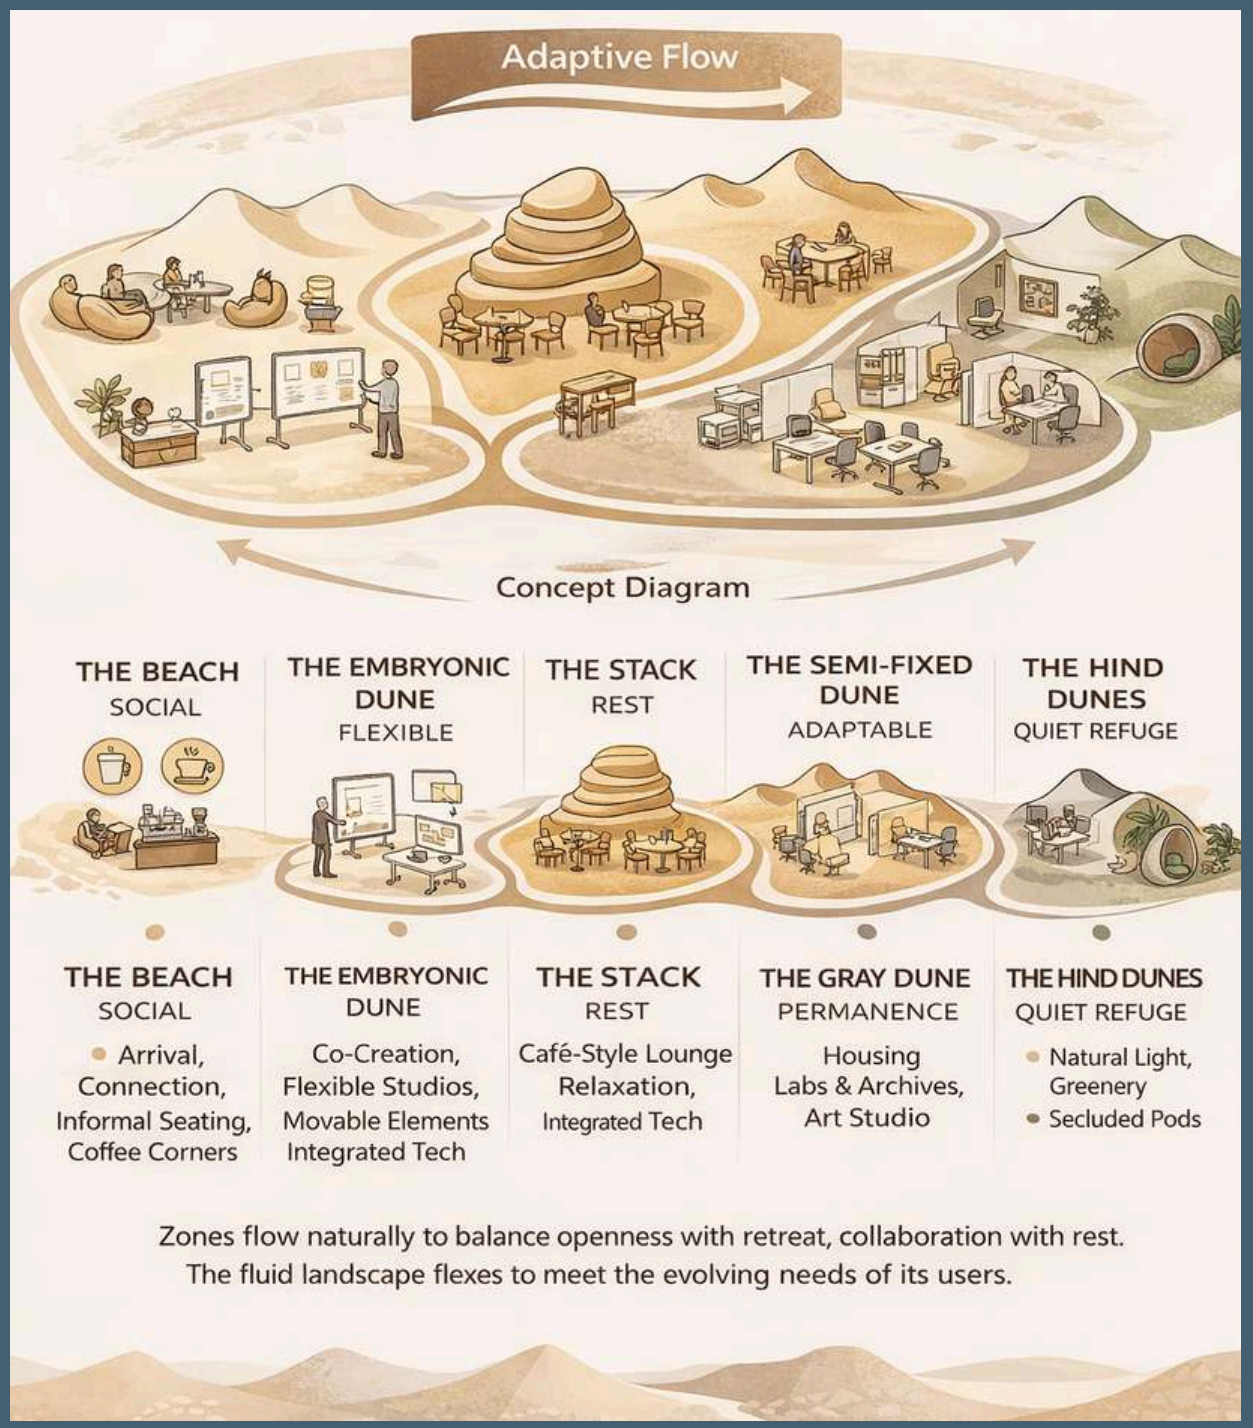

Modunest is a 3D house-printing company trying to bring employees back to work. Through research, we identified trends and patterns that we believe will evolve over the next 30 years as we design this office.

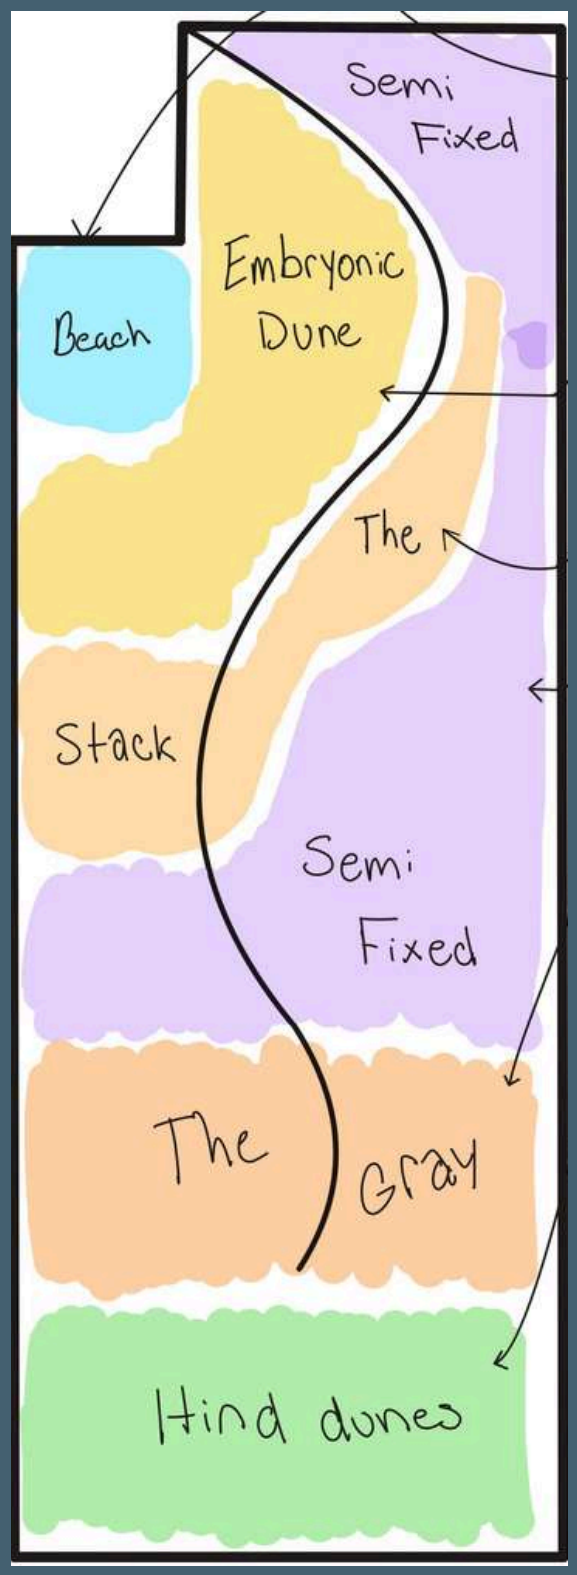

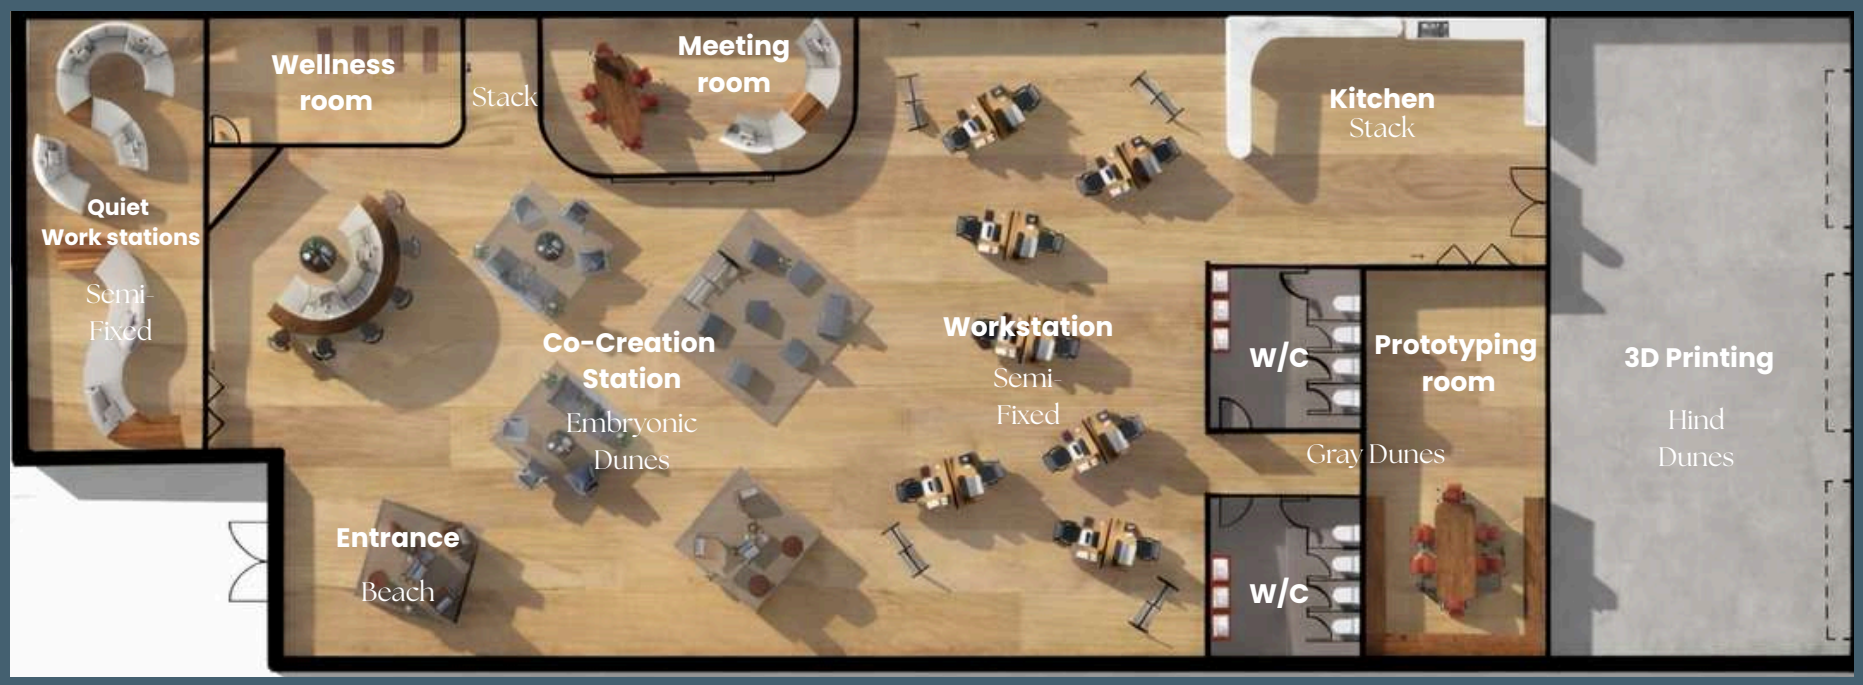

# Concept Framework

Inspired by the shifting logic of sand dunes, Modunest reimagines the workplace as an adaptive landscape that balances movement and stillness. Spatial zones, from open, social “beaches” to enclosed, reflective “hind dunes”, respond to varying needs for collaboration, focus, and rest, creating a flexible environment that evolves with its users.

# Hibernation Hotel

# Concept Framework

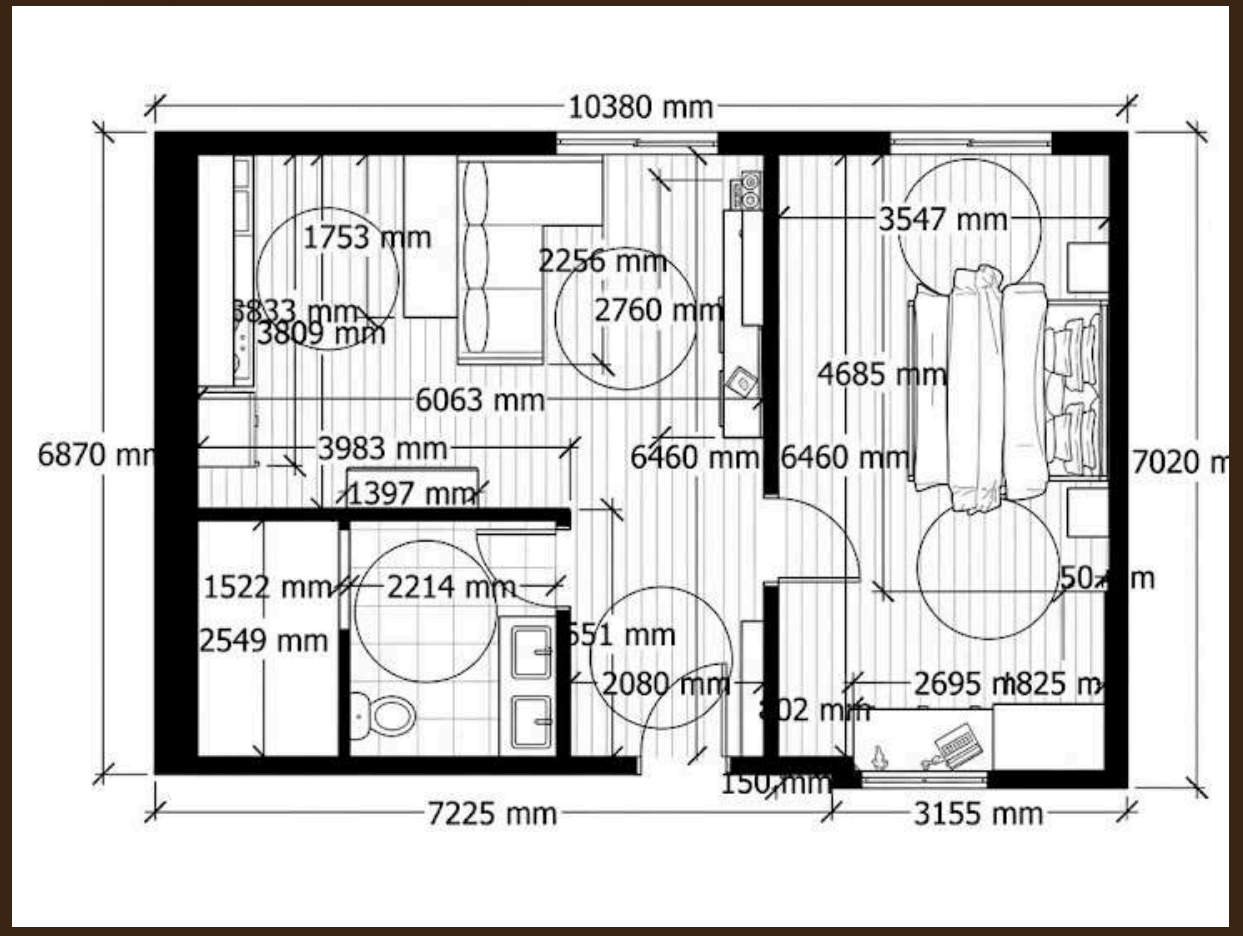

Drawing from a bear's instinct to find a safe and comfortable den, this design reframes the hotel search as a stress-free, intuitive experience. Through accessible, wheelchair-friendly planning and code-compliant solutions, the space ensures comfort, ease, and inclusivity for every user.
